## WHY UHY LLP RIN COMPLIANCE FOR PETROLEUM MARKETERS

UHY LLP provides professional accounting and business consulting services to help middle market companies in the petroleum industry. Having an experienced accounting and consulting firm that understands your business and the competitive forces shaping the petroleum industry is critical to managing a successful business.

At UHY LLP we solve complex tax, financial and business issues. This expertise goes to work for our clients through personalized service – the kind that earns trust, establishes sound working relationships, and creates a foundation for future growth. We help clients with their internal operations and recommend procedures and controls to manage finance and improve efficiencies.

UHY LLP's experienced Petroleum Team of CPAs can help you meet the necessary audit requirements of the Renewable Fuel Standard.

### WHAT IS AN RIN?

Renewable Identification Number that is assigned to each batch of renewable fuel produced

### WHY A RIN?

To meet EPA requirements under the Renewable Fuel Standards for those Marketers who took possession of any RINs in 2009

### WHO NEEDS AN RIN AUDIT?

All petroleum marketers who owned or generated RINs

### WHEN IS AN RIN AUDIT REQUIRED?

Filing deadline for 2010 activity is May 31, 2010
